MODERN SCHOOL**

MINUTES OF MEETING – HUBS OF LEARNING

Date – November 26, 2020

Academics

All the schools are having online classes and syllabus is being completed as per plan. Till the month of September most of the students used to attend class. After the month of October attendance has dwindled in almost all the schools.

Assessments of students are also being done by the schools. Though the school authorities are not very happy about the process.

Schools reopened for classes IX to XII in all the schools with the consent of the parents. But very few students are attending the offline classes.

Conduct of practical for science subjects is a major issue with all the schools. The hub members were guided to opt for Olabs for classes IX-XII by CBSE and conduct the viva voice virtually. Also it was suggested to seek consent from the parents if students can come to school and practice the practical work. Members expressed the need to conduct December assessment theory papers offline with parental consent.

Faculty Enrichment:

The members of HOL also discussed the steps taken for the faculty development. Teachers of OPBMS have attended online CBSE training programmes. In house training sessions were being organized for the teachers of Akal Academy. The members also decided to organize online discussion forums for the teachers of all the schools to understand National Education Policy. Each member school will present the policy during span of one week with mutually convenient dates.

Nominating the lead Collaborator:

Nominating the lead Collaborator of Hubs of Learning for next academic session was also discussed. As per CBSE norms leadership of the Hub should be on rotation basis. If majority of the members agree the same person can continue for the third year. Decision could not be taken in the absence of other members of the HOL.

Frequency and Venue of the meeting:

Decision was taken to have virtual meeting online. The certificates of the events conducted by the schools under Hubs of Learning will be given to the students as soon as possible.
