

Dear Parents,

Atal Innovation Mission recently introduced a new initiative in collaboration with UNICEF - the Financial Literacy Course for Students. This course is designed to equip young minds with essential financial knowledge and skills, paving the way for a financially secure and prosperous future.

We would like our students to seize this invaluable opportunity and take the course at the earliest. By completing the course, not only will students gain crucial financial knowledge, but they will also receive certificates from both UNICEF and AIM, adding a prestigious milestone to their academic achievements.

Furthermore, after the completion of the course, all students will have a chance to showcase their newfound expertise in The National Financial Literacy Quiz, scheduled on 30th July at 11 AM. This quiz will be a stimulating and engaging platform for students to put their knowledge to the test and compete with participants from various schools across the country.

To access the Financial Literacy Course and register for The National Financial Literacy Quiz, please visit the link: <https://aim.myp2e.org> .

Thank you for your unwavering support.

Warm regards
