

Dear Parents

Greetings from OPBMS!

The Change Maker's Winter Camp is a fantastic initiative aimed at fostering innovation, problem-solving skills, and overall personal development among students, teachers, mentors, and parents. The program's focus on a wide array of sectors, including Agriculture, Inclusivity, Mobility, Space, Disaster Management, and Skill Development, demonstrates a comprehensive approach to addressing real-world challenges. The online camp is scheduled to run from December 24th to 30th 2023 and the registration for the same begins from December 16th, 2023.

The Winter Camp is conducted by a team of MoCs (Mentors of Change) of AIM under the leadership and direction of Mr. Kiran Kumar – Regional Mentor of Change (RMoC) - Karnataka.

Here are some positive aspects of the Winter Camp based on the information provided:

1. **Diverse Exposure:** Participants will benefit from exposure to a variety of knowledge areas through eminent speakers who are subject matter experts and experienced professionals. This diverse exposure is crucial for fostering a holistic understanding of the challenges faced in different sectors.
2. **Practical Learning:** The inclusion of online workshops and sessions conducted by experts indicates a practical approach to learning. Participants will have the opportunity to acquire hands-on experience with various methods, processes, tools, techniques, technologies, and soft skills.
3. **Winning National level projects:** Providing insights into what it takes to submit a winning entry to national-level innovation competitions, such as the ATL Marathon 2023-24 (on going), is a great way to motivate and guide participants towards actively engaging in innovation challenges.

Those who are interested to participate in this session, kindly contact for registration:

Mr.Lovedeep Soni (ATL Lab Incharge)
