

Dear Parents
Greetings from OPBMS!

This is to inform you about two major changes in the criteria for participation / selection for various school activities / events.

I. Uniform Specifications

" Uniform " of any organisation including a school is designed and planned by keeping a noble purpose in mind. It represents the organisation and carries the pride and value of the organisation. It instills among the members a sense of equality, pride, belongingness and togetherness. Uniform is the most important aspect of a student's school life. To emphasise the importance of the uniform, henceforth, the first and foremost criteria to be eligible for consideration or selection for any award; academic (A1, subject topper etc), excellence award (best orator, dancer etc.) or co-curricular, will be uniform. A student who is not well dressed throughout the year will not be considered for any other award.

II. Sports specifications

Sports education is an integral part of education. It not only contributes to the physical fitness of the body but also enhances the intellectual and psychological well-being of the person. The values of self-discipline, leadership, team spirit and concentration can be instilled through sports. Keeping all this in focus OPBMS has taken many steps to provide opportunities to students for various sports with flexible schedules. Students are provided opportunities to participate in before school sports, after school sports and also sports during regular school hours. To encourage the students who are dedicated to sports, henceforth, the criteria for participating in inter- house sports competitions will be minimum 50 hours games time. Students have to play/ practice any game for 50 hours to be eligible to participate in inter House sports competitions.

Looking forward to your cooperation.

Warm regards
